Superintendent of Schools

As students and young adults, we encounter certain people who impress in our minds ideals of "pride in oneself" and "pride in our community." During last year's commencement exercises, Dr. Richard Wallace, Superintendent of Schools, reiterated his desire to see a revitalized Fitchburg — physically, as seen in its buildings, and morally, as seen in its youth. Providing us with true leadership, Dr. Wallace makes us aware of these indispensable concepts sometimes forgotten.

Administration

"A New Beginning" is an adequate measure of the true sentiment at Fitchburg High School. The year begins with two newly-established administrators: Principal, Mr. Ernest Hunter, and Assistant Principal, Mr. Peter Ford. Working closely together as an inseparable team in association with their staff, the administration has promoted the incentive this year to instill "student-school pride." Their efforts reflect our school's new motto — "We've got pride!"

Deans

"Where were you yesterday E period? They missed you in English class."
 . . . "Really? The dog took your homework and while you were chasing him for
 it, you missed the bus, and that is why you were late? . . ." Sound familiar?

This year, F.H.S. instituted three deans — Chuck Arning, Richard Tiernan,
 and Marianne DiPalma. They have the responsibility of both helping students
 through guidance and disciplining when necessary.

Office Staff

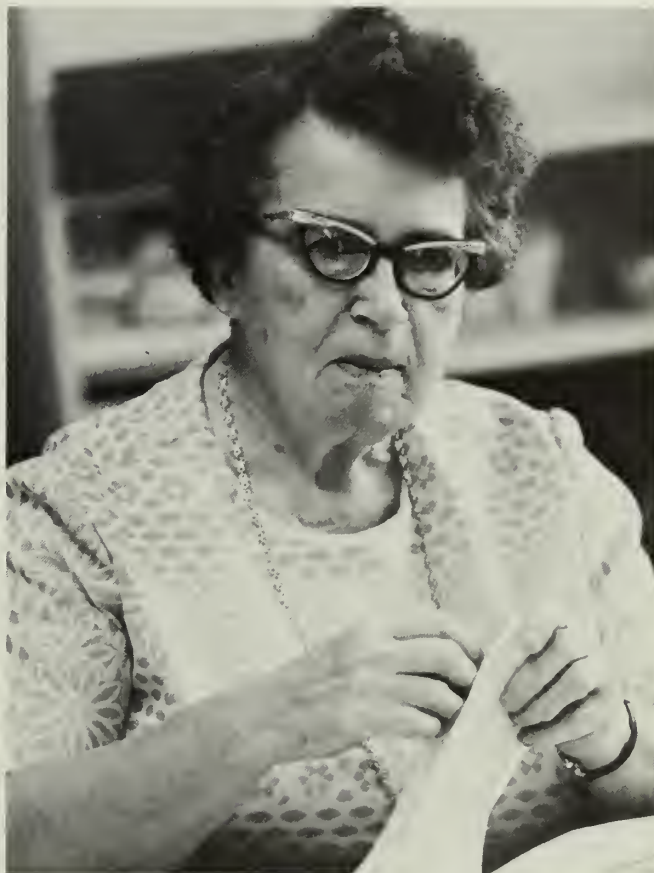

Before entering the building, pasted on the front glass door, a sign reads: "All Visitors Report To The Office." The question may come to mind: "What happens at the office?" Down the hall by an old wooden door, sounds of battling typewriters, the constant ring of telephones, and, often times, the bustling of both students and faculty alike make it apparent that this is the office!

Custodial Workers

From early morning to late evening, the exerting work of the custodians continues throughout the day. These men and women maintain the physical plant, yet, they find time to relate with students by supporting school activities — athletics, Competitive Plays, and other social organizations. Having an efficient staff of qualified custodial engineers makes F.H.S. a comfortable place in which to work.

Cafeteria Workers

Long before the students, the faculty, and the administration begin their daily parade into the building, the cafeteria workers are already busy preparing the afternoon lunch. They have willingly accepted the responsibility for serving a wholesome meal to thirteen hundred people — for some, perhaps their only hot meal of the day. Our “mothers away from home” continue to serve us well and we are indeed grateful.

"Do you want to go to college or go to work after school?" Seniors, in preparing for college, along with other students who are about to enter the world of work and production, turn to their guidance counselors for advice, direction, and, most of all, encouragement. While helping us make these important decisions, our counselors build our self-esteem and worth, thereby allowing us to be more confident in entering the adult world.

One can discover much satisfaction in using his hands to build and create "masterpieces" out of an untouched block of wood. Artistic motivation is the element which encourages an individual's originality. Planning courses to meet students' needs lead to effective and well-rounded individuals. This year, the English Department is revitalizing all phases of English. It will keep the basic courses in the system but add diversified, custom-tailored programs such as Reading Improvement and the career-educated course of Team Teaching. Fine Arts

Painting, music, pottery, macrame, all of these creative endeavors can be expressed and developed at F.H.S. We all have heard of Picasso, Van Gogh, Glenn Miller, Count Basie, but, with constructive study we can learn from these artists. You need not be a budding Salvatore Dali or a Ludwig Von Beethoven to enter this department. Why, with a quick stroke of a brush or by playing "chop sticks" on the piano, and viola! Pre-Vocational

The Pre-Vocational program at Fitchburg High School trains students to successfully handle everyday activities such as shopping, cooking, banking, and budgeting. When dealing with such experiences, simulated cooking and shopping situations are set up in the classroom to expose each student to as much of a realistic atmosphere as possible. Through this type of training the young adults involved are prepared for independent living after High School, and are capable of making responsible contributions to the outside world.

Meeting weekly, the staff receives assignments to report objectively on issues which directly affect the students. All topics and issues are covered in The Page — sports talk, internal affairs, politics, ads, etc. You name it, and the staff of The Page will keep you informed.

Boulder

Boulder editors for 1978 form a row of skillful leaders.

The 1978 Boulder Yearbook is the product of a dedicated nucleus of highly involved Seniors. Meeting daily, we shared a most hectic yet gratifying year. As we became totally involved with this volume, our once casual acquaintances developed into loyal, meaningful friendships. Fruitful hours of typing, designing, selling and writing were complimented with moments of humor and laughter. We shall cherish our fond memories of the diligent effort we put forth to produce an outstanding yearbook.

Like any demanding sport participant, our cheerleaders must also practice on a strict daily basis. It might be thought that once the cheers are learned there is little left to practice. The problem develops that once the cheers are memorized word for word and complimented with acrobatic twists enthusiasm must be generated to keep the cheers from becoming a regular habit. It is difficult at times to cast exuberant smiles and perform spirited cheers during unexcitable games. Keeping the fans at their utmost high is the goal that Cheerleaders of all sports aspire to.

WINTER

"Tight squeeze"

One winter's afternoon as I was walking past the iron gates of Crocker Field, my attention was captured by a confrontation of mysterious forms of enormous size. As I stepped closer, cautious of the unknown, objects shaped into a caterpillar, turtle, Volkswagon, and a Chinese Dragon stood directly in front of me. Clusters of rainbow-colored balloons and crepe paper streamers recalled to mind that F.H.S. donned its Winter Festival; highlighted by a competitive snow sculpturing contest. Fighting the frigid elements of winter, students gathered into teams to create their masterpieces out of fashioned snow. Mayor Gilmartin was on hand to award prizes for creativity and originality.

FESTIVAL

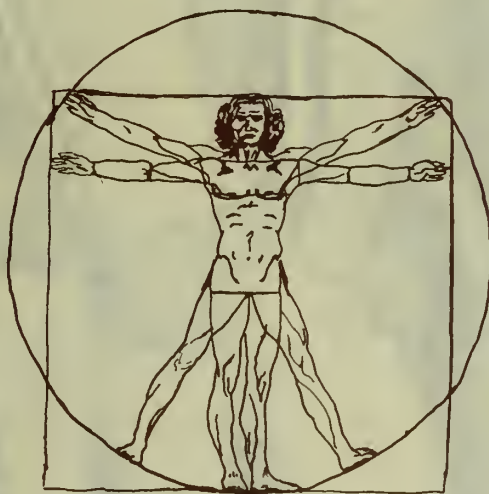

A winter wonderland of crystal snow provides the icy fabric of a day's sculpturing.

Dave Horgan reintroduces Pride to F.H.S. Football. The Red and Gray, led by Tri-Captains Peter Bergeron, Terry Enright, and Scott Wilson, compiled a highly successful season. Relying on an explosive offense and stubborn defense, the Raiders remained at the top from the start. Maintaining their integrity and aggressiveness at practice, they were well prepared. Once the Red and Gray machine began to roll, all opposition soon felt the crushing power of Horgan's Heroes.

GAME

THANKS GIVING

We all have experienced the feeling when we anticipate a moment of joy, but then are lead to a counter blow. Though on the football field we went down in defeat, all of us have learned something new. We have matured as a class because we have learned that winning is not a necessity. If we all stay together and maintain belief in our football team, school and in ourselves, then we can say that "We Have Pride."

Anticipation motivates excellence in performance.

Forgetting the defeat on Thanksgiving Day, both the team and fans looked to the Super Bowl Game with a refreshed and positive outlook. Though both teams remained scoreless during the first half, St. John's pulled ahead 7-0 as Fitchburg fans offered full support of a Raider comeback. Despite our gathered yard lines, Fitchburg's loss was only limited to the scoreboard, for we ourselves knew that "we were the champions."

TEAM

In pre-game warm-ups, Poco reveals poise and agility of footwork.

Soccer, a relatively new sport on the F.H.S. campus, is gaining momentum across the nation and here as well. Skill and agility are the qualities necessary to play in this rigorous sport. The constant motion of the ball keeps the team's senses aroused and minds alert throughout the entire game. This action-packed sport rallies the spectators into a wild frenzy. With the fine leadership of Co-Captains James Hopple and James Ricciuti, the F.H.S. soccer team rose from a young, fledgling team to one that could compete with the best in the district.

Built around veteran seniors and strong underclassmen, the 1977 Harriers surprised many teams with a late surge of power. Taking second place at the Lunenburg Invitational and just missing entry to the districts, the Raiders gained revenge on earlier defeats by beating Leominster, St. John's, and Holy Name. In particular, Gary Kaukoranta repeated his running prowess by reaching the State Finals. Overall, the season proved rewarding for the runners and our school.

CHAMPIONS

TRACK - STAFF

A landmark in the history of F.H.S. sports was attained as the Boys' Indoor Track Team won the Massachusetts Class C Championship during the 1977-1978 season. Completing the most successful season ever, the team came home with three first place medals and a fifth place medal outscoring the other schools in competition. Securing first place in the 1,000 yard run was Peter Bergeron; Paul Boldue, first in the fifty yard dash; fifth in the forty-five yard hurdles was James Pappas, and Jim Vanderbilt, Jim Pappas, Gary Kaukoranta, and Peter Bergeron joined forces to comprise the winning mile relay team. As the crowning laurels are placed, we salute you.

editor's note

Carrying on a recent Boulder tradition, the 1978 editors proudly present its forthcoming issue of the Et Cetera. Adding a few specialties of our own, we feel that this year we have exposed the true sentiment of our class. Through images of student expression as opinions on public affairs, and personal thoughts in prose and poetry, the staff invites you to enter "our world." In appreciation of the faces and institutions which proved this book a classic, the 1978 Boulder would like to thank the students, the people and the city of Fitchburg for being able to make our yearbook not only a book of memories, but a landmark achievement of literary and artistic merit.

l e t t e r s t o e d i t o r

Dear Editor: I am probably not the first to congratulate the Class of 1978, and the entire student body and faculty for the fine work they have done in molding the school into a strong foundation. But this is just what I would like to do. Three years ago when I came to F.H.S. the students seemed as though they were confused and possibly too free. In my Junior year things started to shape up. There were new desks, the halls were repainted, and a new spirit, a new pride, and a new outlook was found in F.H.S. once again. The Football Team added to this new outlook, but the credit does not belong to the Football Team totally. I wish the entire school congratulations and good luck.

Unsigned

Dear Editor: I feel our class as a whole has changed tremendously for the better this year. We seem to have a more responsible attitude towards school curriculum, displayed in our active involvement in student-faculty meetings and groups. Our motto "We Have Pride" has also stirred up an aura of confidence in our student body, accounting partially for our tremendous football season. Our new administrative staff looks promising, and seems suited to meet our needs. In conclusion, this year, our Senior year, looks like the best year yet at F.H.S.

Unsigned

Dear Editor: The future needs people with futures to be there. And if we are to see the age of the Star Ship at all, we must not only graduate from, but graduate "to."

Dave Renda

Dear Editor: My three years at F.H.S. have been the happiest I've known. I have met some really beautiful people. For the most part my education here has been excellent. I strongly disagree when people say that there is general apathy here, and that the quality of education offered at F.H.S. is below par. Yes, there is some apathy, and yes there are many "gut" courses. There are some teachers who aren't very dedicated, and there are many students who don't give a @!!?¢. But when looked for, courses that are challenging and interesting can be found and teachers who are truly dedicated are here. The extra-curricular activities offered at F.H.S. are many. My experiences with Band, Chorus and especially the musicals, have been the happiest I've known and I'll always remember the good times and the friends I've made. When I graduate in June; when I walk across that field and when I sing our Alma Mater, I know that I will cry. The tears will be of happiness for the occasion and of sadness for leaving friends and the familiar behind. I will leave here knowing that I'm as "ready" for the "real world" as I'll ever be.

Willy Fitz

The one certain time I felt a real sense of pride within me for this school was, surprisingly enough, one ordinary morning as I ascended the front school stairs. It was then I noticed the cracks and chips within the battered, aging, stairway, and thought of the many feet besides mine that had trudged ever upward many years before. I thought of where they might be now, what careers they might have undertaken, each one as important in its own aspect as the other, and realized, whatever they had become, they owed a large majority of it to this school, the school that I had now become a "heir" of sorts to. I felt proud to have been in this jewel of knowledge, and entered its portals knowing one day I, too, would leave it and never forget its memories.

Dan Courtney

There has always been pride in me, but now it has awakened with absolute power. Pride is inscrutable, mysterious, yet, it has touched more people than ever before.

James Hopple

There's a feeling all around
You can hear the chatter
There's spirit in each and all
And to us that really matters.

Fitchburg High School on the whole has a good feeling about herself. She's got self-esteem and she's got pride, but what about the individual? Does the student himself have pride? Judging from my past experiences, I would say yes. When I look around and see everyone wearing a number one pin, I know we've got pride.

Kristen Lepp

The motto "We Have Pride" has installed a new sense of purpose and contentment in Fitchburg High School. It has obliterated past feelings of apathy and replaced them with ones of optimism and ambition. Pride has restored student participation and care for the advancement of the high school. In effect, the motto signalled the rebirth of a dead institution, resurrecting a thriving and productive Fitchburg High School.

John Caves

The moment of maximum pride for me is when we all begin to sing the Alma Mater. There is a feeling I sense that is so hard to explain, it's a tingling sensation that I know means I am proud to belong to this school and I am among these people. The people here mean so much to me, I know that we truly do have something different at Fitchburg High, we have pride.

Elizabeth Coombs

Scholastically, dramatically, athletically and for just being a part of F.H.S. is PRIDE because we're #1 in our hearts.

Even though we don't always win, we can take a defeat. That means a lot. That means "We Have Pride."

Dan Emma

Another part of F.H.S. of which I am really proud is its heritage. We have tradition and something to live up to. It is excellent to have goals to reach and to be part of a chain of lives and generations known as Fitchburg High School.

"My Room"

As I sit here distracted from my work, I take a closer look at my room, I see:
a watercolor painting done and signed by myself;
pictures of swimmers on my closet door;
a poster of Nadia Commaneci, an idol;
a Ribbon from a birthday present, given to me by a friend;
a poster of Yosemite Park, a place I long to see;
a plant, given to me by a friend, just one Christmas ago;
a handmade poster, which for a whole summer I saved pictures;
a pressed flower, given to me for the Senior Class Play lays on the desk waiting to be put in the scrapbook;
seasheels which bring back memories of a week spent at Cape God;
and lastly my college applications waiting to be sent out.

My room is not just a place to sleep, but a place to think out problems, be reminded of memories, and a place to create dreams.

"Black-Out"

The night the lights went out
We were left with nothing to do,
No T.V., no electronic games,
Not even lights to read by.
Then came the parents;
Out came the candles,
Out came the cards,
And thoughts of childhood games
You know — the ones
That were played by the fire-light.

"The Discovery"

A once empty feeling,
Now gone.
At one time,
I felt like a hollow shell
Lying on the beach,
Rejected by the sea.
Void of feeling.

Now I am fulfilled
No longer cold,
And unfeeling
Lacking emotion.
I've discovered something
Easily given, easily accepted.
I've discovered love . . .

"Mind Boggling Times"

Running around helplessly — "Fill this out and this." Which way to turn next? "Go this way — no that!" Time eaten away, hour by hour — devoured! Yet nothing done — nothing done!

Faces — laughing, sneering, frowning at me. Lonesome. Depression set in. Lost behind papers and forms — a number — no longer a name. Help me — please!

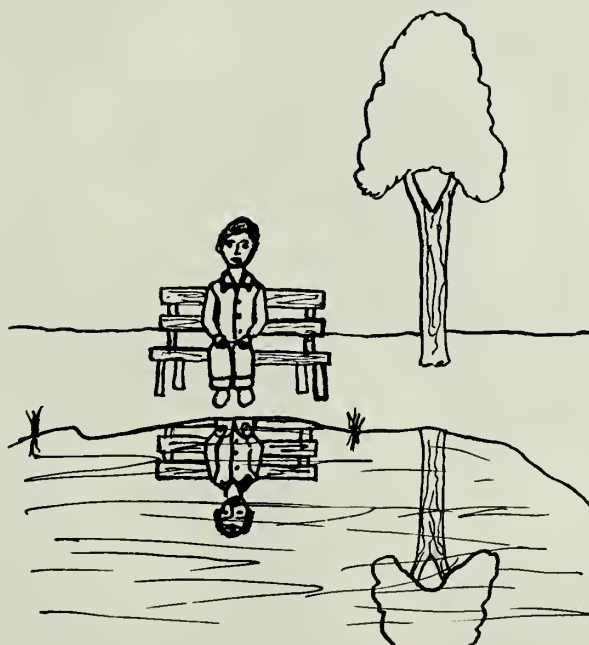

A much-needed diversion loud music and flashing lights. Faded lights to hide lines of fear and worry, lights to hide sadness. Your face in the distance — serene and warm — so friendly! Conversation filled with laughter. Deep and curious, yet you don't pry — I tell you anyway! Dinner and wine for two. Time no longer eaten away — but melted slowly — like snow in Spring. Wonderful! Touching, soft and lovely — you hold me. Peaceful now. Hope restored.

Yet still that feeling. The strangling fear. When alone and in the lights the lines are visible — the lines return. Tears of losing you. Oh — such mind boggling times.

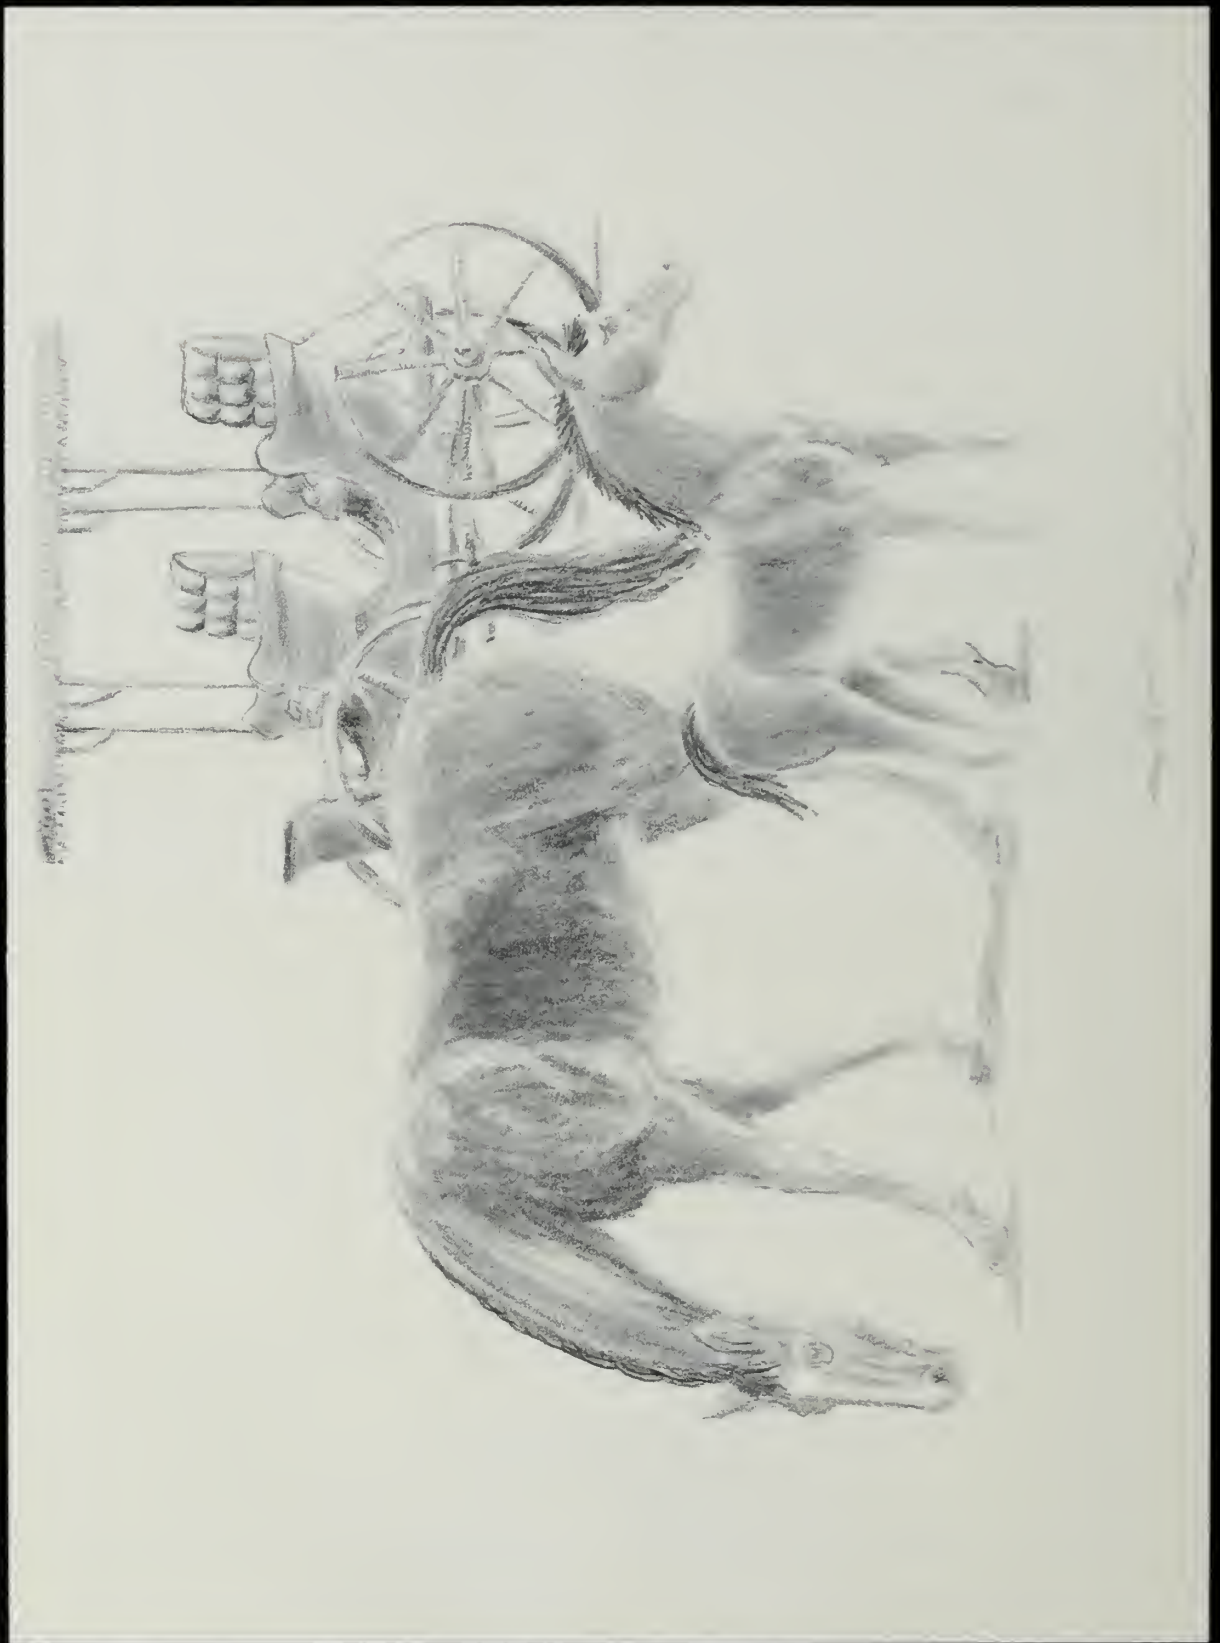

Joan St. Sauveur

Sitting on a rusty park bench, he gazes into the sparkling reflections upon the waterfront. His rugged face reminds one of a craggy mountain side, weather beaten by time and punishment. His clothes are but shabby rags, and he has had them for as long as he can remember, his memory being valid only at intervals between his drinking. His appearance, overall, emits an aura of sickness, of decay — of death. Only in his eyes, two flashing seas of brilliant blue, perhaps as timeless as the ocean itself, can the essence of life be found. But what these twin jewels perceive is yet a mystery. Do they look inward, back to brighter, happier years, or perhaps to some pleasant future? And yet, if those eyes were man's answer to his outcry for peace, then tragedy strikes deep, for the answer is drowned in an onrushing deluge of alcohol, and two shining doves slowly, silently . . . die.

"white" lightning strikes the track

One last quick rev of his bike before that starting flag is waved and Jamie is confident of a successful race! Jamie's fascination for motorcycle racing started early in his life. "When I was about twelve years old with the help of my Dad, I bought a mini bike." From here on a cascade of events evolved. Within a few years, Jamie was upon his first motorcycle. "The company from which I purchased this brand new Bultaco offered me a part time job at the shop and at races on weekends. This involvement triggered my yearning to race." Devoted to the thrill of competition, Jamie has excelled in a few brief years. "I quickly increased my ability to become the youngest Open Class Rider (unlimited sizes of bikes) in New England. One of my achievements was winning first place on national television at an invitational race in the Hartford Civic Center." Jamie concentrates deeply in those moments of pre-race anxiousness. "When I go out to race I must have a clear mind, be totally aware of every maneuver I use! I don't concern myself with people behind me, only those in front. I aim to overtake each to assume the lead position. Vital to Jamie's participation is the equipment he must wear. His complete leather suit is one-fourth of an inch thick, his helmet is a Bell Star full coverage. On the bottom of his left boot, a steel plate not only protects his foot on curves, but allows smoother sliding action in the dirt. Speeding along a flat track at 80 mph, Jamie admits he loves the excitement. "Racing means so much to me. The people I've encountered and the places I've been at are quite an experience in itself. New York, Vermont, Maine, Pennsylvania and several other states. The knowledge I've learned at races could never be replaced." Extremely serious, Jamie White considers racing as a career. His best asset is his ever-increasing talent. "My dream is to become a national expert, racing the country's circuit. As the National Champion I would have the privilege of displaying number one on my plate wherever I travel."

the deans say it all

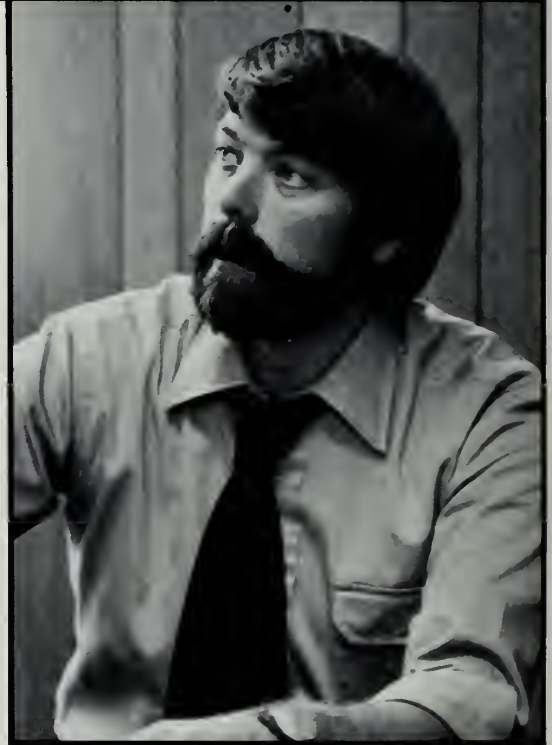

The dawn of the academic year brought several significant changes within the school, one being the appointment of a Dean to the Senior, Junior, and Sophomore Classes.

Being the first year F.H.S. has had deans, it is intriguing to hear how they relate to his or her new position. Senior Dean, Miss Marianne DiPalma exclaims, "the challenge is great!" Mr. Richard Tiernan, Junior Dean, "is happy the opportunity arose for him." As Dean for the Sophomores, Mr. Charles Arning views his role "as exciting!" "I am free to mold the position, because there are no footsteps to follow in."

The Deans are busily involved with student behavior and academic progress. "I wish I was built on wheels to follow upon all my students," laughed Mr. Arning.

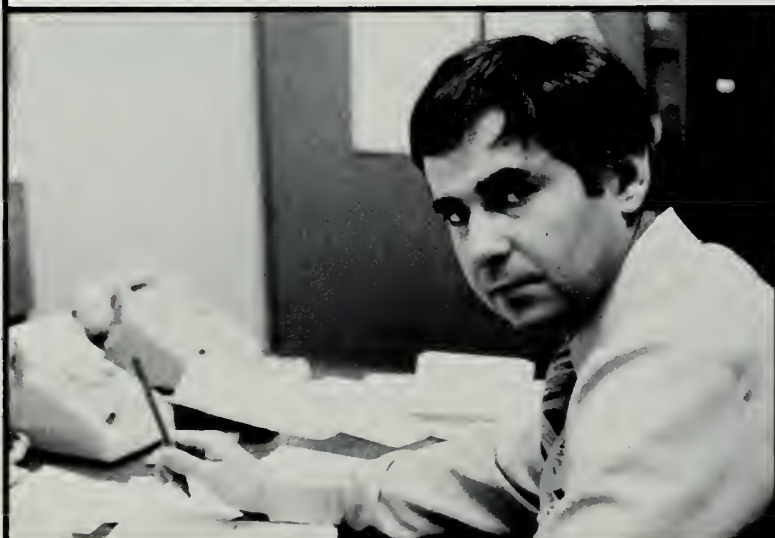

Each Dean discerns that their class looks upon them in different ways. Mr. Tiernan is impressed that he is seen as an authoritative figure, but wishes his students would open up to him more. To the Seniors Miss DiPalma senses she is a confidante as well as a disciplinary figure.

Meeting with Mr. Hunter and Mr. Ford three to five times a week, the Deans discuss new ideas and solve unanswered questions. All three Deans hope to see an ever expanding curriculum to meet the varied needs and abilities of all the students in the school.

Mr. Reginald Quinn

welcome home

Students, faculty, and the administration are happy to see Mr. Reginald Quinn's smiling face lighting the halls at F.H.S. after a comfortable and relaxing stay. Bidding a fond hello, he is truly pleased to collaborate once again as a guidance counselor. Working with young people, guiding them and molding individuals into mature young adults, he responds that as he tries to educate, he himself is being educated as well. Conscience of their personal and academic needs, Mr. Quinn lends a "third ear" by listening to young people's problems induced by the pressures of society. Encouraging rather than discouraging, he is not only a person who guides, but a friend — a man who took the time when no one else could. — "Welcome Home."

It has been our pleasure to have had the opportunity to work with her, to converse with her, and, most of all, to share our everyday lives with her. Captivated for an enrichment in the Cultural Aspects of Humanity, Donna expresses herself through her artistic talents. Donna captures those unique moments of our high school years with precision and a steady hand of the camera. — Basketball 2,3,4; Softball 2,3,4; Ski 2,3,4.

Scot Wilson

Tall, bearded, and witty, "Willie Bear" has a commanding presence all his own. Reserved, his actions speak loudest on the football field and basketball court. Scot's ruggedness makes him a natural for the outdoor life. — Baseball 2; Basketball 2,3,4; Football 2,3,4.

Debbi Wisniewski

Riding upon the softened leathered saddle of a stately mare, Deb experiences feeling of regality. Deb's emotions succumb to the power of music . . . a Nurse's Aid training is in the future.

Meet Me in the Cafe

The cafeteria is the one spot before school where you can sit with friends and enjoy hot chocolate and a honey-dipped donut (maybe two

honey-dipped donuts). Before school and during the day the cafe acts as a good place to meet friends and to catch up on homework.

Debra Wojnas

"Enjoy life to its fullest." Debbie's personality is liberally spiced, bearing a unique humor. Freethinking and independent, she relishes unusual but enriching pastimes. — Field Hockey 2,3,4; Track 3; Thanksgiving Dance 4; Jr. Prom 3; Jr.-Sr. Basketball Game 3.

Rita Wolfram

A soothing smile from Rita will make your sorrows disappear. Her many friends prove a forward camaraderie displayed even to strangers. Scouting the sights of unknown lands, Rita aims to travel extensively. — Boulder Business Editor 4; German Club 3.

Karen Wonkka

Hiking the natural trails of a mountain range satiates Karen's soul with a beauty of the earth. On the performance level, any play is enhanced with Karen's liveliness. — Softball 2,3; Booster Club 2,4; Sr. Class Play; Comp. Play 3.

Jackie Wyman

Jackie believes that one should never give up hope though the conflicts of every day life may seem all downhill. "You've got to keep searching harder day by day." A Pharmacy Technician will suit her lifestyle.

**Brenda Young**

Brenda's long, dark hair attracts the attention of her classmates. She enjoys quiet music and spends many of her summer afternoons by the seashore. She plans to become a secretary.

Mary Youtsey

Mary cherishes the quiet moments in life, especially when she's in the great outdoors. She has been an outstanding tennis player for F.H.S. during her high school years. College is her next step in life, followed by a social studies related career. — Tennis 2,3.

Janice Zapetis

"Accept me as I am, so I may learn what I can become." Valuing the companionship of her friends and family, Jan's honesty will clear her a path for a worthy future. — Booster Club 2,3,4; Drama Club 2; Jr. Prom 3; Sr. Reception 4.

Dawn Zingarello

Dawn has several interests ranging from baseball to needlework. She's involved with a photography club and bowling league also, still maintaining special honors throughout high school. She likes social studies and hopes to become a social worker.

William Horgan

Within the wooded nature dotting our state, Billy braves the wilderness during his rugged camping expeditions. In addition to fulfilling a camper's life, Billy often casts off into fishing jaunts . . . motorcycle use and repair also lend a fascination to Bill.

John Johnson

Aiming for that center headpin, John's accurate line of vision follows through with a steady, straightforward swing as he participates in a bowling league . . . reserved with words yet amiable in action . . . college presents a future for John.

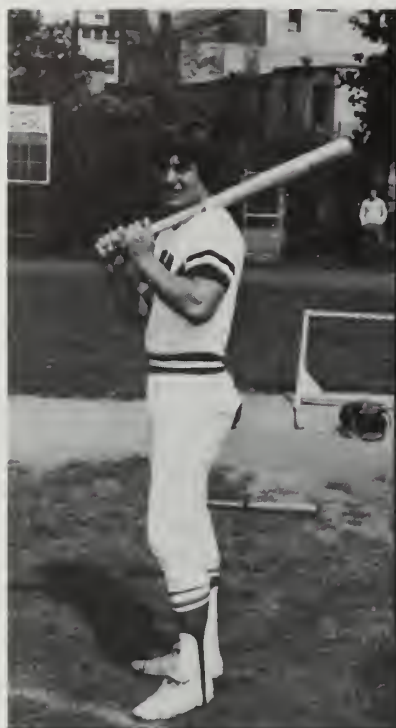

Saturday Night Fever at F.H.S.

After being buried in snow by the "Blizzard of 78," the record hop sponsored by the Stage Band and Booster Club lifted the dreary gloom of Winter. Swaying in the Latin Hustle or stepping to the Miami Walk, the night had released peoples' energy that was kept locked up. Through rain, sleet, hail or snow, the students of F.H.S. are rearing to go.

JUNIOR

CLASS OFFICERS

Just one step away from "Senior Citizenship" the Junior class officers are off on the right foot. Working diligently as a close team, bonds of friendship and loyal courtesy have surfaced, forming a reliable quartet of individuals. Rollerskating parties on Tuesday night and Super Market Sweepstakes answer to the call of excitement. Passing the podium to Junior officers, the Class of 1978 leaves F.H.S. in safe hands.
